I'm a web developer with a passion for software and for learning things that can make me a better professional.

Projects

Java Developer

January 2023 – February 2024

Java – JavaFX – SQL – Git

RESPONSIBILITIES

- I created a desktop application to keep track of sales and stock at a small business.
- Elaborate a list of requirements that adapt to the company case based on the owner's experience.
- Make a functional database and application that don't need maintenance in short or medium time.

KEY ACHIEVEMENTS

- The application results in a better organization of the stock with less effort on the part of the employees.
-

Web Developer

June 2023

HTML – CSS – Javascript – Bootstrap – Git

RESPONSIBILITIES

- In this project of 3 people, we elaborate an ecomerse web for a clothing store called "ElBuho."
- My roles were managing the team, making the general design, and most of the programming.

KEY ACCOMPLISHMENTS

- As my first time managing other devs I fulfilled the role in an acceptable way, according to the other devs.
